I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Morocco. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish. What educational path would you recommend for me?

Thanks for sharing your background — and congratulations on finishing primary school! At 16 in Denmark, you're at an important point where you can choose a path that matches your interests, strengths, and future goals. Let's look at your options in a clear way so you can decide what suits you best:

## 🎓 Main Educational Paths After Primary School in Denmark

### 1. Gymnasium (General Upper Secondary Education)

- **What it is:** Academic and university-preparatory.
- **Duration:** 3 years.
- **Types:**
  - **STX:** General subjects (literature, science, social science).
  - **HHX:** Focus on business and economics.
  - **HTX:** Focus on technology and natural sciences.
- **Good for you if:**
  - You like studying academically.
  - You're considering university in the future.
  - You're unsure what career you want yet.

### 2. EUD (Erhvervsuddannelse – Vocational Education and Training)

- **What it is:** Combines school and practical training (apprenticeships).
- **Duration:** 2-5 years, depending on the trade.
- **Examples:** Electrician, hairdresser, mechanic, chef, etc.
- **Good for you if:**
  - You like hands-on work.
  - You want to enter the job market with specific skills.
  - You want to start earning earlier.

### 3. EUX (Vocational + Academic Hybrid)

- **What it is:** A mix of EUD and Gymnasium – you get both practical training and a study qualification for higher education.
- **Duration:** About 4-5 years.
- **Good for you if:**
  - You want to keep university as an option.
  - You like both practical and academic learning.
  - You want job opportunities *and* the chance to study further.

## How to Choose the Right Path

Here are a few questions to ask yourself:

1. **Do I enjoy academic subjects like languages, math, or science?**
  - If yes: **STX**, **HTX**, or **HHX** could be good.
2. **Do I want to work with my hands or learn a trade?**
  - If yes: **EUD** or **EUX** might be a better fit.
3. **Do I want to keep university as an option for later?**
  - Choose **Gymnasium** or **EUX**.
4. **Do I want to start working earlier and earn money sooner?**
  - **EUD** or **EUX** could be smart.

## Your Cultural Background: A Strength

Your Moroccan heritage and Danish fluency are a real advantage. You can bring unique perspectives into areas like:

- **International business (HHX)**
- **Social work or education**
- **Health care (nursing, therapy, etc.)**
- **Multilingual careers (interpreter, tourism, diplomacy)**

## Final Advice

If you're unsure, **Gymnasium (especially STX or HHX)** keeps many doors open. If you know you want a hands-on career, **EUX** gives you flexibility with job skills *and* the possibility to continue studying later.

Would you like help exploring specific programs or schools near where you live in Denmark? Or are there certain subjects you enjoy that I could help match to a path?
