

Uddannelsesmuligheder i Danmark

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from The Russian Federation. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish.

What educational path would you recommend for me?

Thanks for sharing a bit about yourself! Since you're 16, just finished primary school in Denmark, and you're fluent in Danish, you're at a key point where your next step can really shape your future. Here are some tailored educational paths based on your background, interests, and opportunities in Denmark:

Your Options After Primary School in Denmark

In Denmark, students typically choose between these main paths after primary school:

1. Gymnasium (STX, HHX, HTX) – General Upper Secondary Education

Aimed at students who might want to attend university later.

- **STX (Almen studentereksamen):** Broad academic focus (humanities, natural sciences, social sciences).
- **HHX (Handelsgymnasium):** Focus on business, economics, and international studies.
- **HTX (Teknisk gymnasium):** Focus on technology, natural sciences, and technical subjects.

Recommended if: You enjoy academic work and might want to go to university later. STX or HHX might be good choices if you're interested in languages, economics, or culture (including your Russian roots).

2. EUD/Erhvervsuddannelse – Vocational Education and Training

Combines school and apprenticeship in areas like:

- Carpentry, mechanics, plumbing
- Hairdressing, retail, hospitality
- IT, media, or design

Recommended if: You want to work with your hands, learn a trade, and get a job more quickly after school. These paths are respected and practical.

3. EUX – Hybrid of Vocational Training + General Education

You get both a vocational education **and** an academic qualification, opening doors to both university and jobs.

Recommended if: You want flexibility — both hands-on skills **and** the option to continue to university later.

How to Choose?

Here are some questions to help narrow it down:

- **Do you like studying (reading, writing, exams), or do you prefer practical work?**
 - **Are you interested in going to university in the future?**
 - **Do you enjoy tech, business, science, languages, or creative fields?**
 - **Do you want to start earning money sooner?**
-

Bonus Opportunities for You

Since you have a Russian background and are fluent in Danish, consider:

- **Language-based careers:** Interpreter, translator, or working in international business or diplomacy.
 - **International studies or HHX:** If you're interested in economics or culture.
 - **IT or tech via HTX or EUX:** Denmark has a strong tech sector.
-

Suggested Next Steps

1. **Talk to an educational counselor at your school or local UU-vejledning** (Ungdommens Uddannelsesvejledning). They can give you personalized advice and help with applications.
 2. **Visit open house events** at gymnasiums or vocational schools in your area.
 3. **Think about what interests you most** and what kind of life you imagine in 5-10 years.
