Uddannelsesmuligheder efter folkeskolen

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Liechtenstein. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish.
What educational path would you recommend for me?

Thanks for sharing that—being fluent in Danish and having a multicultural background gives you some great opportunities. Since you're 16 and just finished primary school (which in Denmark usually ends at 9th or 10th grade), you're now at a key decision point. Here's a breakdown of your main options and what they could lead to:

🎓 Main Education Paths After Primary School in Denmark

1. Gymnasium (STX, HHX, HTX, or HF) – General Upper Secondary Education

If you're aiming for university in the future, these are good options:

- **STX (Almen studentereksamen):** Broad academic education (Danish, math, sciences, humanities).
- **HHX (Højere Handelseksamen):** Focus on business, economics, and languages.
- **HTX (Højere Teknisk Eksamen):** Focus on science, technology, and IT.
- **HF (Højere Forberedelseseksamen):** 2-year program for slightly older students, more practical/shorter.

🧭 *Best if you:* Enjoy school subjects, want to go to university, or aren't sure yet.

2. Erhvervsuddannelse (EUD) – Vocational Education and Training

You combine school with practical training (often with an apprenticeship). Leads to skilled jobs like:

- Electrician
- Carpenter
- Hairdresser
- Chef
- Mechanic
- Social and health care assistant

🧭 *Best if you:* Prefer hands-on work, want to earn money while studying, or want a shorter path to the job market.

3. EUX – Combination of Vocational Training + General Upper Secondary

You get both a vocational diploma *and* qualifications for university. It's more demanding but gives you options.

🕐 *Best if you:* Want a practical profession *and* want to keep the door open for university later.

🔍 Choosing What's Right for You

Ask yourself:

- **What are you interested in?** (People, technology, art, business, etc.)
- **Do you prefer theory or practice?**
- **Do you want to go to university?**
- **How important is earning money soon?**

✨ Some Additional Tips

- **You can switch paths later.** Don't stress about making the "perfect" choice now.
- **Talk to a guidance counselor (studievejleder).** They can help you match interests with schools and programs.
- **Your background from Liechtenstein might also give you opportunities** to study abroad or access certain scholarships.

🧠 Example Scenarios

- **You like science and want to go to university:** → HTX or STX.
- **You enjoy business and international topics:** → HHX.
- **You're into working with your hands and want to work soon:** → EUD.
- **You want job training but might want to go to university later:** → EUX.
