

Uddannelsesvalg efter folkeskole

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Democratic Republic of the Congo. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish. What educational path would you recommend for me?

Thanks for sharing! Since you're 16 and just finished primary school in Denmark, you're at a key point where you can choose a path that fits your interests, goals, and strengths. Here's a breakdown of your main options and some guidance to help you decide:

🎓 1. Gymnasium (General Upper Secondary Education)

Ideal if: You're considering university later, enjoy academic subjects, and are unsure exactly what you want to do yet.

Options:

- **STX:** Focuses on humanities, science, and social studies.
- **HHX:** Focus on business, economics, and marketing.
- **HTX:** Focus on technology and natural sciences.
- **HF:** A shorter, more flexible 2-year option; ideal if you want a university path but need a slightly lighter academic load.

Good for careers in: Law, medicine, engineering, business, teaching, journalism, etc.

🔧 2. Erhvervsuddannelse (Vocational Education & Training – EUD)

Ideal if: You prefer practical, hands-on work and want to start working sooner or combine work with further studies.

Examples:

- Electrician
- Carpenter
- Hairdresser
- Social- and healthcare assistant (SOSU)
- Mechanic
- IT supporter
- Chef

Good for: Getting into the job market quickly, or doing a “EUX” which combines vocational training with general subjects (so you can go to university later).

3. EUD – Vocational + Academic Education

Best of both worlds: Combines EUD with academic subjects, so you become a skilled worker *and* get the qualifications for higher education.

Example: You become a trained IT supporter but can still apply to university later.

How to Choose?

Ask Yourself:

- Do I enjoy school and studying? → Consider Gymnasium.
- Do I prefer doing practical things and learning by working? → Consider EUD or EUD.
- Do I want the option of university later? → STX, HHX, HTX, HF or EUD.
- Do I want to start earning money sooner? → EUD or EUD.

Think About:

- **Your strengths:** Are you stronger in math, science, writing, art, working with your hands?
- **Your interests:** Do you want to work in tech, healthcare, business, arts, etc.?
- **Your goals:** Do you want to go to university, start a business, work in a trade, etc.?

Not Sure Yet?

You can talk to:

- **Your school's guidance counselor (UU-vejleder).**
- **Studievalg Danmark** for free help choosing a path.
- **Brobygning (Bridge-building courses):** These short programs let you try different types of schools for a few days before deciding.

Cultural Background

Your Congolese roots are also a strength. Being multilingual and having an international perspective can be valuable in fields like:

- International business
- Diplomacy
- Social work
- Language teaching

- Global health
-

If you tell me more about what you're interested in (subjects you like, dream jobs, etc.), I can give even more personalized suggestions!
