

Uddannelsesvalg efter folkeskole

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Saint Vincent and the Grenadines. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish. What educational path would you recommend for me?

Thanks for sharing that! Since you're 16, fluent in Danish, and just finished primary school in Denmark, you're at an important point where you can choose between several educational paths depending on your interests, strengths, and future goals. Here's a breakdown of the main options available to you in Denmark, along with some advice:

♦ Main Educational Paths After Primary School in Denmark:

1. Gymnasiale uddannelser (General Upper Secondary Education)

These programs prepare you for university.

- **STX (Alment Gymnasium)** – Broad academic focus: languages, humanities, science.
- **HHX (Handelsgymnasium)** – Focus on business, economics, and international studies.
- **HTX (Teknisk Gymnasium)** – Focus on science, technology, and innovation.
- **HF (Højere Forberedelseseksamen)** – A 2-year program, more practical and shorter than the others.

Recommended if:

- You like academic subjects.
- You want to go to university later.
- You're interested in general knowledge, science, tech, or business.

2. Erhvervsuddannelser (Vocational Education and Training - EUD)

These combine school and practical work, leading to a skilled trade (e.g., electrician, hairdresser, mechanic, chef).

Recommended if:

- You like hands-on work.
- You want to start working earlier (but can still go to further education later if you choose).
- You're not too into academic classroom work.

3. Kombinerede forløb (EUX)

A mix of vocational training and academic study – you get both a trade and the qualifications to go to university.

Recommended if:

- You want job-ready skills **and** the option to study further.
- You're motivated and can handle a heavier workload.

◆ Other Factors to Think About:

- **Interests & Strengths:** Are you more into science, business, arts, tech, or hands-on work?
- **Future Goals:** Do you want to go to university? Work with your hands? Start a business?
- **Social Life & Learning Style:** Do you prefer group work, theory, or more practical experience?

◆ Some Example Paths:

Interest	Suggested Path
You love science/tech	HTX or STX (science line)
You like business/economics	HHX or EUX business
You enjoy hands-on work	EUD (e.g., electrician, chef)
You're unsure but want to keep options open	STX or EUX
You prefer a shorter academic route	HF (2 years)

◆ Final Advice:

- **Visit schools and info meetings** – It's normal to be unsure. Try talking to a counselor ("UU-vejleder") or visiting a few schools.
- **It's okay to change later** – The Danish system is flexible. Many people switch paths.
- **Ask your parents or friends what they think**, but make a choice that fits **you**, not just what others expect.

If you'd like, I can help you figure out your interests with a few short questions, or I can list specific schools or programs near where you live. Just let me know!
