

Uddannelsesmuligheder i Danmark

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Ecuador. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish.

What educational path would you recommend for me?

That's a great question, and it's thoughtful of you to reflect on your next steps at this important point! Since you're 16, have finished primary school (I assume you mean *folkeskolen* or 9th/10th grade), and are fluent in Danish, you have several good educational paths ahead in Denmark. Let's break them down:

🎓 Main educational options after folkeskolen

1 Gymnasiale uddannelser (Upper secondary general education)

These programs prepare you for higher education (university, etc.).

- **STX (studentereksamen)** – broad, academic focus, with sciences, humanities, social sciences, languages.
- **HHX (higher commercial exam)** – focus on business, economics, and international trade.
- **HTX (higher technical exam)** – focus on technology, natural sciences, IT.
- **HF (higher preparatory exam)** – shorter (2 years), more flexible, often good if you want a quicker path to higher education.

✅ Best if: You enjoy school, want to study at university, and want to keep your options open.

2 Erhvervsuddannelser (Vocational education and training)

These combine school and apprenticeship (praktik), and lead directly to skilled jobs (crafts, technology, care, hospitality, etc.).

- Example: carpenter, electrician, IT technician, chef, social- and health care assistant.

✅ Best if: You want practical experience, earn while learning, and enter the job market sooner.

3 Combination (EUX)

- A vocational education + gymnasial level exams. You become skilled *and* qualify for higher education.

✅ Best if: You want hands-on skills and want to keep the door open for university later.

😞 What to consider when choosing

- 💡 **Interests:** Do you enjoy academic subjects, practical work, or both?
 - 💡 **Strengths:** Are you stronger in theory, practical tasks, creative work, or social interaction?
 - 💡 **Future dreams:** Do you see yourself at university? Or working sooner? Or maybe starting your own business?
 - 💡 **Lifestyle:** Would you prefer a mix of school + work (like vocational), or full-time school?
-

Your background is a strength

Since you have Ecuadorian roots and are fluent in Danish, you c
