

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Kenya. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish.

What educational path would you recommend for me?

Thanks for sharing that! You're at a great stage in life to start thinking seriously about your future, and being bilingual and bicultural (Danish and Kenyan) can be a real strength.

In Denmark, after completing **primary school (folkeskole)**, you generally have a few main educational paths to choose from, depending on your interests, academic strengths, and career goals. Here's a breakdown to help you decide:

♦ 1. Gymnasiale uddannelser (Upper Secondary Education)

If you're interested in **university** in the future or you enjoy academic subjects, this is a strong choice.

Main types:

- **STX (Studentereksamen):** Broadest option, includes humanities, science, social studies. Good for university.
- **HHX (Handelsskolens studentereksamen):** Focus on business, economics, and international trade.
- **HTX (Teknisk studentereksamen):** Focus on science, technology, and engineering.
- **HF (Højere Forberedelseseksamen):** Shorter (2 years), more practical – for those who want more flexibility or a later start.

Recommended if:

You enjoy school subjects and might want to go to university later.

♦ 2. Erhvervsuddannelser (Vocational Education and Training – EUD)

This path is **hands-on** and often includes an **apprenticeship**. You learn a profession like:

- Electrician
- Hairdresser
- Carpenter
- IT supporter
- Health care worker

These are great if you like **practical work** and want to get into the job market sooner. You can even continue to university later through the **EUX** program.

Recommended if:

You want a skill-based career or prefer learning by doing.

♦ 3. Kombineret ungdomsuddannelse (KUU) or Produktionsskole/FGU

If you're unsure or need more time to figure things out, these programs help you **develop skills**, build confidence, and get ready for work or further education.

Recommended if:

You're not quite ready to choose a specific path yet and want support exploring options.

** Questions to Help You Decide:**

- Do you enjoy school and academic subjects?
 - Do you prefer working with your hands or solving practical problems?
 - Are you thinking about university in the future?
 - Would you rather start working sooner?
-

✨ Extra Advice Just for You:

- Being fluent in **Danish and likely English and/or Swahili** could open doors in **international business, diplomacy, or tourism**.
 - You might also explore careers where **cultural understanding matters**, such as **teaching, social work, or international relations**.
 - If you're interested in helping others, a **healthcare or education path** could be great.
-

If you tell me more about your interests or what subjects you like/dislike, I can help you narrow it down even more.
