

Uddannelsesmuligheder i Danmark

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Uruguay. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish. What educational path would you recommend for me?

Thanks for sharing that! At 16, you have several good options in Denmark after completing primary school (folkeskolen). Your choice depends on your interests, strengths, and future plans. Here's a breakdown of the main educational paths you can consider:

🎓 1. Gymnasiale uddannelser (Upper Secondary Education)

If you're interested in academic studies and possibly going to university, this is a strong route.

a) STX (Studentereksamen)

- **Focus:** Broad academic education with emphasis on humanities, sciences, and languages.
- **Best for:** Those who enjoy school subjects and want a general education.
- **Length:** 3 years.
- **Leads to:** University or other higher education.

b) HHX (Higher Commercial Examination Programme)

- **Focus:** Business, economics, marketing, and languages.
- **Best for:** Students interested in business or entrepreneurship.
- **Length:** 3 years.
- **Leads to:** Business degrees or starting your own business.

c) HTX (Higher Technical Examination Programme)

- **Focus:** Technology, science, IT, and innovation.
- **Best for:** Students who enjoy math, science, and tech.
- **Length:** 3 years.
- **Leads to:** Technical or engineering degrees.

d) HF (Higher Preparatory Examination Programme)

- **Focus:** Shorter academic program with a practical focus.
- **Best for:** More mature students or those wanting a quicker path to higher education.
- **Length:** 2 years.

- **Leads to:** University College or specific university programs.

2. Erhvervsuddannelser (Vocational Education and Training – EUD)

If you're more interested in practical work and want to start a career earlier, this is a great option.

- **Focus:** Learning a trade (e.g. electrician, carpenter, hairdresser, chef, mechanic).
- **Includes:** School + apprenticeship in a real job.
- **Length:** 2–5 years, depending on the program.
- **Leads to:** Skilled work or possibly further education (e.g. erhvervsakademi).
- **Bonus:** You often get paid during the apprenticeship.

So, what might be right for you?

Here are some guiding questions:

Question	Suggestion
Do you like academic subjects and plan to go to university?	Consider STX, HTX, or HHX.
Are you interested in science, tech, or innovation?	HTX might be the best fit.
Do you enjoy business or entrepreneurship?	HHX could be great.
Prefer hands-on learning or want to work soon?	Check out vocational education (EUD).
Unsure what to choose?	STX is the most general and flexible.

Bonus: Your Bilingual/Bicultural Background

Being fluent in Danish and having Uruguayan roots is a **huge strength!** Consider exploring programs or careers in:

- **Languages, international relations, or translation.**
- **Business or trade between Denmark and Latin America.**
- **Tourism or cultural exchange.**
- **Education or social work in diverse communities.**

Next Steps:

- Visit **educational fairs** or open houses (åbent hus).
- Try "**E-vejledning**" (free online guidance from the Danish Ministry of Education).
- Talk to a **studievejleder** (student counselor) at your school or municipality.
- Explore the website: ug.dk

Would you like help narrowing it down based on your interests or favorite subjects?
