

Uddannelsesvalg i Danmark

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Argentina. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish.

What educational path would you recommend for me?

That's a great and thoughtful question — and it's excellent that you're already reflecting on your next steps! Let's break it down based on your background, interests, and the Danish education system.

Your situation

- ✓ 16 years old
- ✓ Finished primary/lower secondary school (folkeskolen)
- ✓ Fluent in Danish
- ✓ Born in Denmark, with Argentine roots
- ✓ At a transition point — choosing upper secondary education

Main educational paths in Denmark at your stage

Here are the typical options after primary school:

1 General upper secondary education

- STX (Studentereksamen)** – academically broad, with humanities, science, and social science tracks
- HHX (Higher Commercial Examination)** – focus on business, economics, marketing
- HTX (Higher Technical Examination)** – focus on technology, science, innovation
- IB (International Baccalaureate)** – internationally recognized program, taught in English

2 Vocational education and training (EUD/erhvervsuddannelse)

- Hands-on, prepares you for a specific trade (e.g. electrician, chef, carpenter, health care assistant)
- Often a mix of school and paid apprenticeship

3 Combination programs

- EUX** – combines vocational training with a general upper secondary exam (so you can get a trade qualification + access to higher education)

Things to consider

✓ What are your interests?

- Do you like academic subjects (math, languages, science, history)?
- Do you prefer practical, hands-on work?
- Are you interested in business, technology, arts, or international topics?

✓ Do you want to go to university later?

- If yes → STX, HHX, HTX, IB, or EUX would keep that door open.
- If no → EUD might be a faster route into the job market.

✓ Language strengths

- You're fluent in Danish, but if you're also strong in Spanish or English, an IB program or international business focus (HHX) could be a good fit.

✓ Cultural strengths

- With your Argentine background, you might enjoy international studies, languages, or global business.

☀ My suggestion

Without knowing your specific interests yet:

- If you like academics and want to keep options open → **STX** or **IB**
- If you like business and languages → **HHX**
- If you like science/tech/innovation → **HTX**
- If you want to start working in a skilled trade → **EUD** (or **EUX** if you want both a trade and the option for higher studies)

🚀 Next steps

- 👉 Visit open house events ("informationsaften") at nearby schools
- 👉 Talk to a **UU-vejleder** (youth guidance counselor — they can help you map your options)
- 👉 Consider job shadowing or internships to explore different fields

⚡ **If you want, tell me more about what subjects you enjoy most — or what kind of work you imagine yourself doing — and I can give more tailored advice!**
