

Uddannelsesvalg efter folkeskolen

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Czechia. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in Danish.

What educational path would you recommend for me?

Thank you for sharing a bit about yourself! It sounds like you have a great foundation, and it's excellent that you're thinking carefully about your next steps. Let's break this down so I can give you thoughtful recommendations.

Your situation

- ✓ 16 years old
- ✓ Finished primary school (I assume you mean *folkeskole* or equivalent)
- ✓ Fluent in Danish
- ✓ Born in Denmark, Czech background

Common next steps in Denmark

After primary school (*folkeskole*, typically 9th or 10th grade), Danish students generally choose between these main paths:

General upper secondary education

If you're aiming for university later:

- **STX (Alment gymnasium)** – Broad academic focus (sciences, humanities, social sciences). Good if you want to keep many doors open.
- **HHX (Handelsskolen)** – Focus on business, economics, and marketing.
- **HTX (Teknisk gymnasium)** – Emphasis on technology, science, and engineering.
- **IB (International Baccalaureate)** – If you're interested in an international environment, IB can be a strong choice (offered at some Danish schools).

✓ *Who this is good for:* Students who like academic work and may want to go to university or higher education later.

Vocational education (EUD/EUX)

- Vocational education and training (EUD) – Prepares you for a specific job, combining school with apprenticeships (e.g., electrician, carpenter, hairdresser, chef).

- EUX – A combined program where you get a vocational education **and** a general upper secondary exam (like STX), giving you access to higher education too.

✓ *Who this is good for:* If you like practical, hands-on work and want to learn a trade, but maybe also want the option of further study.

Other options

- **10th grade** (if you want an extra year to decide or improve grades)
 - **Efterskole** – A boarding school for 1 year, focusing on personal development, social life, and sometimes special interests (music, sports, design).
-

How to choose?

Here are some questions you could ask yourself:

- Do I enjoy academic subjects, and do I want to go to university later? → STX, HHX, HTX, IB
 - Do I prefer learning by doing, and can I see myself in a practical job? → EUD, EUX
 - Am I unsure, or want a year to mature? → 10th grade, efterskole
-

Special note about your background

Since you have Czech roots:

- Your bilingual background is a strength! Consider programs that value languages (e.g., STX with language focus, IB).
 - You could also explore exchange opportunities, as both Denmark and Czechia offer EU student mobility.
-

My recommendation

👉 If you want to keep the most options open and enjoy academic I
