

Uddannelsesmuligheder efter folkeskole

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from South Africa. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish. What educational path would you recommend for me?

Thanks for sharing your background — and congratulations on finishing primary school! You're at an exciting point in your life, and in Denmark, there are several solid educational paths after primary school (typically after 9th or 10th grade). Here's a breakdown of the main options and some guidance based on your situation:

🎓 1. Gymnasiale Uddannelser (General Upper Secondary Education)

These are academic and prepare you for university. Good if you enjoy school and want to keep your options open.

Main types:

- **STX (Studentereksamen)** – Focuses on general subjects like humanities, social sciences, and natural sciences.
- **HHX (Higher Commercial Exam)** – Business, economics, marketing focus.
- **HTX (Higher Technical Exam)** – Focus on science, tech, and engineering.
- **HF (Higher Preparatory Exam)** – Shorter (2 years), more flexible, and less theoretical.

✅ Recommended if:

You're interested in going to university later or want a strong academic foundation.

🔧 2. EUD/Erhvervsuddannelse (Vocational Education and Training)

Practical, job-oriented training. You combine school and work (apprenticeship).

Examples of professions:

- Electrician
- Carpenter
- Hairdresser
- Mechanic
- Healthcare assistant

✅ Recommended if:

You prefer learning by doing and want to start working earlier (often with a salary during training).

3. EUX – A Combination of EUD and Gymnasial

You get both a vocational qualification and a study qualification. Longer, but very versatile.

Recommended if:

You want practical skills *and* the option to go to university later.

How to Choose?

Here are some questions to guide you:

1. **Do you enjoy school and academic subjects?**

- Yes: Consider **STX**, **HTX**, or **HHX**.
- No: Consider **EUD** or **EUX**.

2. **Do you have an idea of your dream job or field?**

- Yes: Choose a path that fits that goal.
- No: Choose a general path like **STX** or **HF** to keep your options open.

3. **Do you want to work with your hands or in a trade?**

- Yes: Consider **EUD** or **EUX**.

4. **Are you more creative, technical, or social?**

- Creative: STX, design-oriented EUDs
- Technical: HTX, technical EUDs
- Social: STX, HF, or healthcare-related EUDs

Cultural Identity & Background

Being of South African descent gives you a rich cultural background that can be a strength — especially in fields like:

- **Languages & communication**
- **International business**
- **Social work or education**
- **Cultural exchange or diplomacy**

Final Thought

You're still very young, so it's okay not to have everything figured out yet. If you're unsure, talk to an **educational counselor (studievejleder)** at your school or local UU-center. They can help you explore options and even arrange visits to different schools.

Would you like me to help you make a plan based on what you're good at or interested in? Feel free to tell me your favorite subjects or hobbies.
