

Uddannelsesmuligheder efter folkeskolen

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Zambia. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish. What educational path would you recommend for me?

Thanks for sharing that – it's great that you're thinking carefully about your next step after primary school. In Denmark, after **primary school (folkeskolen)**, students typically go into **secondary education**, which can take different directions depending on your interests, goals, and strengths.

Here are the main educational paths available to you, along with recommendations based on different interests:

🎓 1. Gymnasiale uddannelser (Upper Secondary Education)

These are academic programs that prepare you for higher education like university.

Types:

- **STX** (*Almen studentereksamen*): Focus on general subjects like languages, science, and humanities.
- **HHX** (*Højere handelseksamen*): Business and economics focused.
- **HTX** (*Højere teknisk eksamen*): Technology, science, and innovation focus.
- **HF** (*Højere forberedelseksamen*): A 2-year program, more practical and shorter, often for those who want to move on quickly.

Recommended if:

- You like school subjects (math, science, languages, etc.)
- You're considering university later on.
- You're not sure what you want yet – gymnasiale paths keep many doors open.

🔧 2. Erhvervsuddannelser (Vocational Education and Training - EUD)

These combine school with hands-on training and apprenticeships in a company.

Fields include:

- Health and care
- IT and technology
- Construction
- Business and retail
- Gastronomy, hairdressing, and many others

Recommended if:

- You like learning by doing
- You want a job soon after education
- You have a specific trade or skill in mind

Bonus: Some EUD paths can lead to higher education too!

💡 So what should you choose?

Here's how to think about it:

Interest	Suggested Path
"I want to go to university one day"	STX, HHX, or HTX
"I like science, tech, or innovation"	HTX
"I'm into business or economics"	HHX or EUD Business track
"I want to work with my hands or learn a craft"	EUD
"I'm unsure and want to keep doors open"	STX or HF

🇩🇰 Extra tips for you as a Danish-Zambian student

- **Language strength:** Being fluent in Danish is a huge advantage. If you also speak English well (or want to improve), you'll have great opportunities.
- **Representation:** Denmark needs more diverse voices in all fields — from science to business to politics. Choose a path that lets *you* shine and represent where you come from proudly.
- **Talk to a vejleder (school counselor):** They can help you explore specific schools, strengths, and even local programs.

Would you like me to suggest specific schools or programs near where you live in Denmark? Or do you want help narrowing down based on what subjects or careers interest you?
