

Uddannelsesmuligheder i Danmark

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Equatorial Guinea. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish. What educational path would you recommend for me?

Thanks for sharing your background—you're at an exciting point in life where you have many good options ahead. Since you've just finished primary school in Denmark (likely 9th grade), your next step will usually involve choosing one of the available **youth education programs (ungdomsuddannelser)**. Here's a breakdown of your main options, based on your interests and goals:

1. Gymnasiale Uddannelser (General Upper Secondary Education)

These are academic programs that prepare you for university:

A. STX – Studentereksamen

- **Focus:** Broad and academic (humanities, sciences, social sciences).
- **Good for:** If you're interested in university and want a general education.

B. HHX – Higher Commercial Examination

- **Focus:** Business, economics, and international trade.
- **Good for:** If you're interested in business, finance, or management.

C. HTX – Higher Technical Examination

- **Focus:** Science, technology, engineering, IT.
- **Good for:** If you like tech, science, or want to become an engineer.

D. HF – Higher Preparatory Examination

- **Focus:** Shorter (2 years), more practical.
- **Good for:** If you want a shorter academic route to university or need a more flexible program.

2. Erhvervsuddannelser (Vocational Education and Training – EUD)

- **Focus:** Practical and job-focused (plumber, hairdresser, electrician, chef, etc.).

- **Length:** 2–4 years depending on field.
- **Good for:** If you want to start working earlier and like hands-on learning.
- **Bonus:** You get paid during your apprenticeship!

3. Kombineret Uddannelse eller EUX (Dual Academic + Vocational)

- **EUX:** Combines EUD and gymnasial (academic) education.
- **Good for:** If you want job training + option to go to university.

Questions to Help You Decide:

1. Do you want to go to university later?

- Yes → STX, HHX, HTX, or HF.
- Maybe → EUX (gives you options).
- No → EUD (get into work sooner).

2. What are your interests?

- Science/tech → HTX
- Business/economy → HHX
- General studies (humanities, languages, social studies) → STX
- Practical work (crafts, care, food, etc.) → EUD or EUX

3. How do you like to learn?

- Academic and theoretical → Gymnasiale programs
- Practical and hands-on → EUD or EUX

Example Paths (Based on Different Interests)

Interest	Suggested Path
I want to become an engineer	HTX → University (DTU)
I want to open a business	HHX → Business school
I want to work with people	STX or HF → Social work
I want to work with my hands	EUD (e.g. electrician)
I want both work and study	EUX (e.g. EUX Business)

Final Advice:

- **Visit a UU-vejleder (youth education advisor)** – They can guide you based on your grades and interests.
- **Try brobygning (educational internships)** to experience different types of schools before deciding.
- **Talk to others** – older students, teachers, family – and see what worked for them.

Would you like help figuring out what suits your personal interests best? You can tell me what subjects you like, how you prefer learning, and what you imagine doing in the future.
