

Uddannelsesmuligheder efter folkeskolen

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Gambia. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish.

What educational path would you recommend for me?

It's great that you're thinking carefully about your next steps! Since you've just finished primary school (I assume you mean *folkeskolen* — 9th or 10th grade), you have several good options in Denmark. Let's break it down to help you choose:

☀ Key questions to reflect on

Before choosing a path, consider:

- **What are your interests?** (e.g. academic subjects, hands-on work, creative fields, technology, business, healthcare)
- **How do you like to learn?** (e.g. classroom learning, practical/apprenticeship, project-based work)
- **Do you want to go to university later, or get into work faster?**
- **Do you want a more social environment, like boarding school?**

🇩🇰 Your main educational options after primary school

✓ Gymnasium (STX, HHX, HTX, HF)

If you enjoy school subjects and think you might want to go to university:

- **STX (Almen studentereksamen)** – broad focus on humanities, sciences, social sciences.
- **HHX (Handelsskole)** – focus on business, economics, languages.
- **HTX (Teknisk gymnasium)** – focus on technology, science, IT.
- **HF (Højere forberedelseseksamen)** – 2-year program, more practical, often for those who want to move on to certain professional programs or university colleges.

✓ EUD / EUX (Erhvervsuddannelser)

If you want a more practical, hands-on education where you learn a trade or profession (with or without an academic option):

- **EUD** – vocational education (e.g. carpenter, hairdresser, chef, mechanic, social worker assistant)
- **EUX** – combines vocational training with gymnasium-level academic subjects, so you can both work and go to university.

✅ Efterskole or 10th grade center

If you want an extra year to develop personally, build confidence, or explore your interests (e.g. music, sports, design, international studies).

🎯 Recommendations based on your situation

👉 Since you're fluent in Danish and have grown up in Denmark, you can choose freely between all these options.

👉 Think about whether you want a *general academic path* (like gymnasium) or a *more applied/practical path* (like EUD/EUX).

👉 If you're unsure, it's okay to take 10th grade — either at your local 10th grade school or an efterskole — to give yourself time to explore.

📝 Next steps

- Talk to a *UU-vejleder* (Ungdommens Uddannelsesvejledning) — they can help you plan based on your grades, interests, and goals.
 - Visit open house events at schools (many have these in winter/spring).
 - Think about job shadowing or internships — seeing a real workplace can help you decide.
-

💡 **Tip:** With your background (Danish + Gambian roots) and bilingual experience, you might also have strong skills for international business, languages, social work, or intercultural communication — worth considering!

If you tell me a bit more about your interests (e.g. subjects you like, dream jobs, hobbies), I can suggest a more specific path! Would you like that? 🚀
