

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Nauru. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish.

What educational path would you recommend for me?

That's a big milestone—congratulations on finishing primary school! Since you're in Denmark and fluent in Danish, you have a lot of good options ahead of you. What's best depends on your interests, goals, and how you prefer to learn. Here's a clear overview of the main paths you can take after primary school in Denmark, and some guidance to help you choose:

## 🎓 1. Gymnasiale Uddannelser (General Upper Secondary Education)

These are typically 3-year programs that prepare you for university.

### Most common options:

- **STX (Almen studentereksamen)** – General academic program with broad subjects (sciences, humanities, social sciences).
- **HHX (Højere handelseksamen)** – Focus on business, economics, marketing.
- **HTX (Højere teknisk eksamen)** – Focus on technology, natural sciences, and innovation.
- **HF (Højere forberedelseksamen)** – A 2-year version of STX, more flexible, often used by adults or students who want a shorter route to university.

### ✅ Recommended if:

You enjoy academic subjects and are considering university later.

## 🔧 2. Erhvervsuddannelser (Vocational Education and Training - EUD)

These combine school and paid apprenticeships (praktik). You'll be trained for a specific trade or profession.

### Examples:

- Electrician, carpenter, chef, healthcare assistant, IT support, mechanic, hairdresser, and many more.

### ✅ Recommended if:

You like hands-on learning and want to get into the workforce faster with practical skills.

You can also combine this with **EUX**, which gives you both a vocational qualification *and* a studentereksamen-level diploma — giving you access to higher education later if you change your mind.

## 💡 3. Other paths to consider

- **10th Grade (10. klasse)** – Some students choose to take a 10th school year, often to mature, improve grades, or figure out what they want to do.
- **Efterskole** – A boarding school experience that often includes 10th grade, with a mix of academics and personal development. Can be great for confidence, independence, and exploring interests.

✅ **Recommended if:**

You're unsure about your path and want more time to think and grow.

---

😞 **How to Choose?**

Ask yourself:

- Do you enjoy academic subjects like math, history, or science? → Consider **STX/HTX/HHX/HF**.
  - Do you like learning by doing or working with your hands? → Consider **EUD/EUX**.
  - Are you unsure and need more time? → Consider **10th grade or Efterskole**.
- 

🌍 **Bonus: Nauruan Background**

While Denmark is your home, your Nauruan heritage is a unique strength. Think about how you could use that—maybe in international studies, global health, diplomacy, or cultural work in the future.

---

If you can tell me more about your interests, strengths, or dream job (even if it's vague!), I can give you a more personal recommendation. Would you like that?
