

Uddannelsesmuligheder i Danmark

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Togo. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish. What educational path would you recommend for me?

Thanks for sharing your background — it's great that you're thinking ahead about your education. Since you're 16 and just finished primary school in Denmark, you're likely at the point where you're choosing between several educational paths under the **Danish youth education system**. Here's a breakdown of your main options and some guidance based on your background and possible interests.

Main Educational Paths After Primary School (Folkeskole) in Denmark

1. Gymnasiale Uddannelser (General Upper Secondary Education)

These are for students who want to go to university later.

- **STX (Alment Gymnasium)** – Broad academic education with many subject choices.
- **HHX (Handelsskolen)** – Focuses on business, economics, and languages.
- **HTX (Teknisk Gymnasium)** – Focuses on science, technology, and innovation.
- **HF (Højere Forberedelseseksamen)** – 2-year general education program, often for more mature or practically-oriented students.

 **Choose this path if:** You enjoy academic learning and might want to go to university in the future.

2. Erhvervsuddannelser (VET – Vocational Education and Training)

These are for students who want to enter the workforce sooner with hands-on skills.

- Examples: Electrician, carpenter, hairdresser, social and health care worker (SOSU), mechanic, chef, etc.
- Usually includes both school and apprenticeship (praktikplads).

 **Choose this path if:** You enjoy working with your hands or have a clear idea of a profession you'd like to pursue.

3. Kombinationsforløb / EGU / FGU

If you're not quite ready for the others or need a more flexible, supportive path, **FGU (Forberedende Grunduddannelse)** is a transitional education designed to help students get ready for either VET or general education.

Recommendations Based on Your Background

You're fluent in Danish and bicultural (Danish-Togolese), which is a big strength. Here are a few suggestions:

If You Like Academic Subjects

- **STX** or **HHX** could be ideal.
 - STX if you're unsure and want a broad education.
 - HHX if you're interested in business, international trade, or economics — especially useful if you ever want to connect Denmark with Togo or other countries.

If You Like Technology or Science

- **HTX** could be great. It focuses on tech, engineering, biology, etc.

If You Prefer Practical Work

- A **VET education** could get you into a career quickly. Some VET paths (like IT support, electrician, or health care assistant) are in high demand in Denmark and offer good wages.

Final Tips

- **Talk to an educational advisor (UU-vejleder)** – They are free and can help you find the right path.
- **Try brobygning (intro weeks)** – You can try different educations before deciding.
- **Think about your goals** – Do you want to go to university? Work quickly? Start your own business?

If you tell me a bit more about your **interests**, I can give you more specific suggestions. For example:

- Do you enjoy working with people?
- Do you like numbers, writing, or science?
- Are you more hands-on or academic?
- Any careers you're dreaming of?

Let me know and I can help you more precisely.
