

Uddannelsesmuligheder i Danmark

I'm a 16 year old person living in Denmark. I'm born in Denmark, but my parents are from Bolivarian Republic of Venezuela. I just finished primary school in Denmark and am now considering what my next step should be. I'm fluent in danish. What educational path would you recommend for me?

Thanks for sharing your background! Since you've just finished primary school in Denmark (which typically means **Folkeskolen** up to 9th or 10th grade), your next step would be to choose a **youth education program (ungdomsuddannelse)** — a path that prepares you for either further studies or employment.

Here are the main options in Denmark for someone your age:

1. Gymnasiale uddannelser (Upper Secondary Education)

These are academic programs that prepare you for university.

A. STX (Almen studentereksamen)

- Focus: Broad academic subjects – humanities, science, and social studies.
- Good if: You're interested in a university education later on (e.g., law, psychology, international relations, etc.).

B. HHX (Higher Commercial Examination)

- Focus: Business, economics, marketing, and international trade.
- Good if: You're interested in business, entrepreneurship, or working in international companies.

C. HTX (Higher Technical Examination)

- Focus: Technology, natural sciences, IT, and innovation.
- Good if: You're into science, engineering, or technology.

D. HF (Higher Preparatory Examination)

- Shorter (2 years), more practical, often for those who want to return to education later or weren't happy with 9th/10th grade.
- Good if: You want a flexible and slightly less academic program, possibly leading to teacher training, nursing, or other mid-length higher education.

2. Erhvervsuddannelser (Vocational Education and Training - VET)

- Combine school and apprenticeship.
- Over 100+ tracks: electrician, chef, hairdresser, mechanic, etc.
- Takes about 3-5 years.
- You earn money during the apprenticeship (praktik).
- Good if: You prefer learning by doing and want to enter the workforce sooner.

Special Opportunity: Bilingual or International Studies

Since you speak Danish and likely also Spanish (due to your family), you could look for:

- **International gymnasiums** (e.g. International Baccalaureate - IB).
- Language-focused STX or HHX lines.
- These could open doors for studies or work abroad.

So what should *you* choose?

Let me ask a few things to give a sharper recommendation:

1. What subjects or activities do you enjoy most?
2. Do you imagine going to university in the future?
3. Would you like to start working soon or prefer more school?
4. Are you interested in combining Danish and Venezuelan cultural backgrounds somehow (e.g., working internationally, studying languages, or development work)?

You don't have to have everything figured out yet — but your answers will help me guide you more specifically.
